Free Public Lecture

presented by

Professor Gilly Salmon

Pro Vice-Chancellor, Learning Transformations, Swinburne University of Technology

“E-tivities: The key to active online learning”

Professor Salmon shares the story of the research and development of the 5 stage model, etivities and emoderating, exploring their applications to fully digital as well as the blended, mobile and life integrated learning applications of the future.

Professor Gilly Salmon is one of the world’s leading thinkers in online learning. She researches and publishes widely on the themes of innovation and change in Higher Education and the exploitation of new technologies of all kinds in the service of learning.

She is internationally renowned for her significant contributions to online education, including research, innovation, program design, teaching methods and the use of new technologies.

Gilly is Pro Vice-Chancellor, Learning Transformations at Swinburne University of Technology. She took up her appointment at Swinburne in January 2012. Previously, she was the Executive Director and Professor (Learning Futures) at the Australian Digital Futures Institute, based in the University of Southern Queensland, Australia and was Professor of E-learning and Learning Technologies, and Head of the Beyond Distance Research Alliance and the Media Zoo, at the University of Leicester in the United Kingdom.

Recent publications include Podcasting for Learning in Universities and Learning in Groups. The third edition of her seminal book E-moderating was published in 2011. The 2nd edition of E-tivities is available from June 2013.
